> Available as small crane & beam console  
> Special configurations available

YOUR PARTNER FOR  
INDUSTRIAL COMPANIES.

# INDU-REX®

## SAVE TIME AND MONEY WITH THE INDU-REX®. FLEXIBLE. PRACTICAL. SAFE.

Move heavy loads safely and effortlessly. Optimize production processes. Increase flexibility in confined spaces. The INDU-REX® is a multifunctional lifting device that has been specially developed to meet the requirements of your company. Whether as a compact small crane or as a flexibly positionable beam console – the INDU-REX® adapts to your needs and relieves your employees of lifting and transportation tasks in day-to-day operations.

Your benefit: With the telescopic column of the small crane and the multiple articulated jib, the INDU-REX® ensures maximum flexibility in production and storage areas. More efficiency – and therefore more economical and faster work: This is what the INDU-REX® has to offer.

It can even master areas that are difficult to access, saving you time and money – for greater efficiency, safety and cost-effectiveness in your business. INDU-REX® – your reliable partner in industrial applications.

## THE CLEVER SOLUTION FOR THE INDUSTRY.

In action wherever you need it: The INDU-REX® helps you and your employees to move stored goods, building materials, machines and products effectively. Depending on the model, a load capacity of up to 400 kg is possible with an operating radius of 5 m. The flexible 5-fold articulated jib adapts precisely to your on-site conditions

and your application requirements and relieves your employees at work. This is cost-effective working in your business!

The INDU-REX® is robust and low-maintenance. All components comply with the VDE test guidelines, DIN regulations and European standards. CE marking, documentation and test book are available.

## INDU-REX® SMALL CRANE

- > Load capacity up to 400 kg with 5 m operating radius
- > Multi-joint jib for flexible handling
- > Easy positioning by forklift or mini crane on site
- > Your advantage: No inclined pulling possible – and therefore no risk of tilting
- > Additional storage space under the INDU-REX®: No space lost!

## INDU-REX® BEAM CONSOLE

- > Load capacity up to 250 kg
- > Chain block with pendant control
- > Multi-joint jib
- > Your advantage: No inclined pulling possible – and therefore no risk of tilting

# B:HOFFMANN

Your partner for cost-effective turnkey solutions in the field of conveyor and storage technology as well as steel, container and mechanical engineering. We also offer a full range of services for complex projects, from 3D design to the procurement of equipment, production, assembly and documentation.

## Unsere Leistungsübersicht:

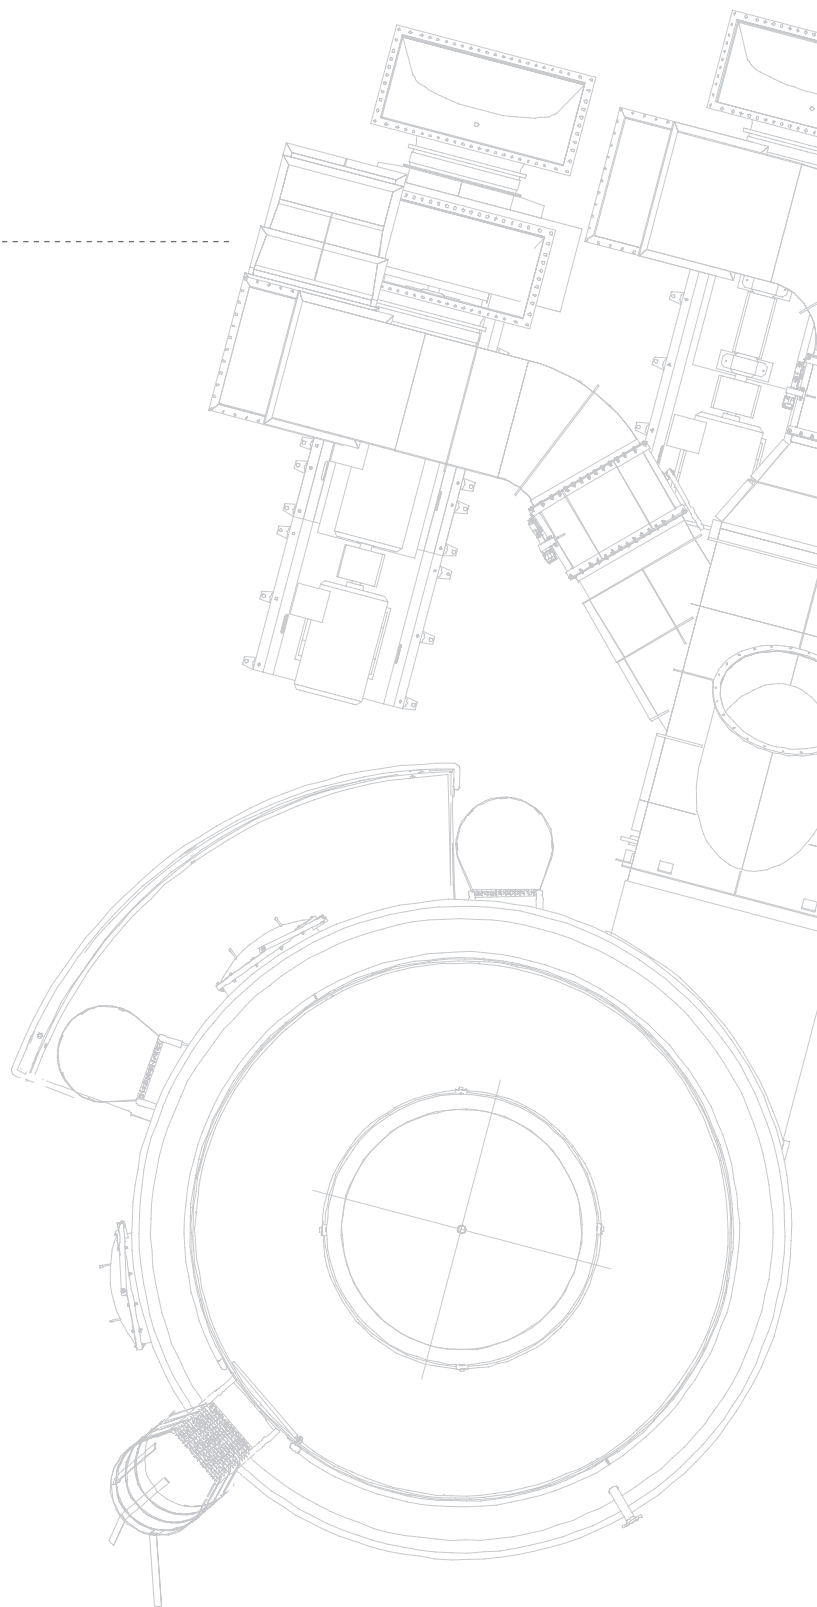

- > Project management
- > Construction
- > Production
- > Pre-assembly
- > Control system construction
- > Logistik
- > Montage
- > Dokumentation
